Experience the Power of Operate from Arez

Operate is the AI-powered platform that allows security services providers to manage everything from scheduling to compliance in one platform. Automate tasks, stay visible, and in control.

Guard Scheduling

Plan smarter with insights into availability, fatigue, conflicts, compliance, overtime, and costs, all in one place.

Accurate Invoicing & Seamless Payroll

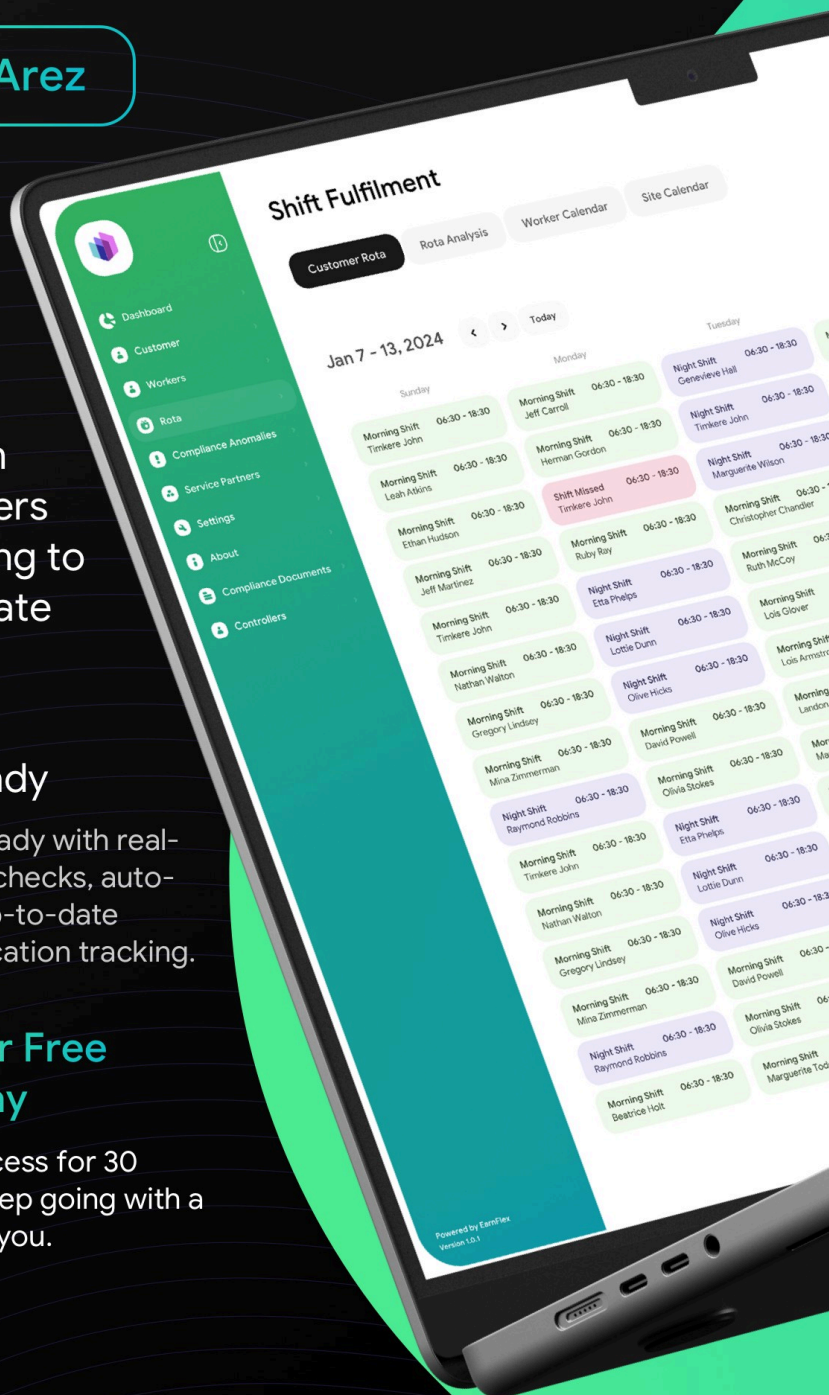

Automate billing and payroll with precision, reducing errors and saving hours every week.

Audit-Ready

Stay audit-ready with real-time licence checks, auto-alerts, and up-to-date guard certification tracking.

Start Your Free Trial Today

Unlimited access for 30 days, then keep going with a plan that fits you.

Operate with Confidence and Complete Control

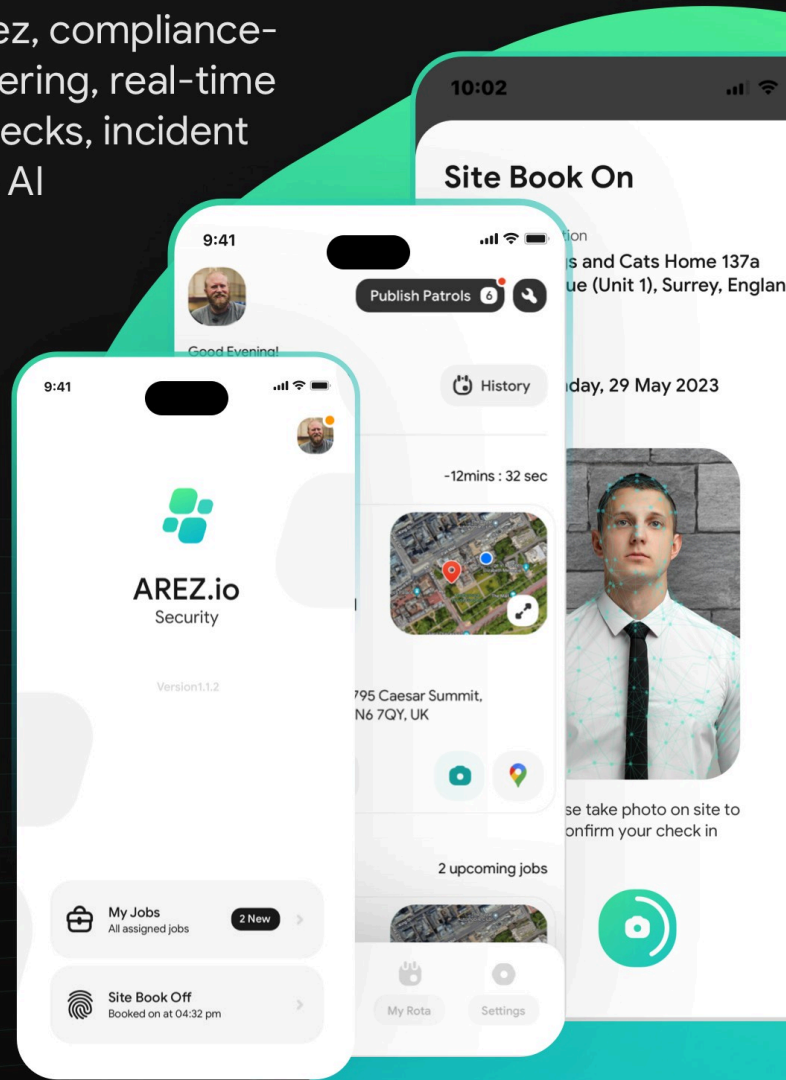

Take full control of every shift with Arez, compliance-first solution that combines smart rostering, real-time attendance, automated SIA licence checks, incident reporting, and seamless payroll in one AI-powered platform.

Effortlessly manage subcontractors, monitor patrols, maintain uniforms, log incidents, and gain full visibility through customisable dashboards, while staying audit-ready and keeping your team connected via a free mobile app.

Built on the Intelligent Arez Platform

Arez.io is an AI-powered CAFM/CMMS and field service management platform, engineered for speed, adaptability, and control. Designed to deliver a seamless user experience, Arez adapts to every industry to enable safer, smarter, and more efficient operations.
